
Ceramics - Open Studios in the Region

Posted by mittens - 2009/03/15 13:01

20-21-22 March 2009 marks the annual Open Studios/Demos weekend or the Journees Nationales de la Ceramique en Borgogne et Jura.

Saone et Loire, Cote d'Or, Nièvre, Yonne, Jura and Beaujolais are all represented to a greater or lesser degree, by a myriad of different types of makers and ceramic artists, with a total of 46 studios making themselves available to the public. Several restaurants are having exhibits on display/for sale whilst you dine.

Too many to list in detail, the publicity is double sided A3 thus difficult to scan and post here but if anyone wants info about a specific area or town, then please feel free to contact me.
