
Cheap telephone & internet

Posted by CandU - 2009/08/27 11:49

I am looking for a cheaper telephone internet service than that provided by France Telecom and looking at the package offered by Teleconnect (Anglo Pack). Their service seems to offer the cheapest calls and internet service. Has anyone had experience of them? Are they reliable? Are there any hidden costs? How good are the alternatives? Is it worth paying more?
